

Testing

```
x = 1:10  
y = 10:1  
plot(x, y)
```

```
library(ggplot2)  
library(plotly)  
library(gapminder)  
  
p <- gapminder %>%  
  filter(year == 1977) %>%  
  ggplot(aes(gdpPercap, lifeExp, size = pop, color = continent)) +  
  geom_point() +  
  theme_bw()  
  
ggplotly(p)
```
